Chapter 1 by GuitarHiro

It might surprise you to know that there are some races of aliens that keep cats as pets the same way as you or I might.

One such alien was Soul, one of the Kylanisg. She lived on a earth-like planet called Metra Etira with her cat, Moscow.

Moscow was a small calico and white cat with a raccoon-like tail and gold eyes. She was skinny and very curious about her environment. She often got into trouble.

Soul and Moscow shared an apartment with her best friend Mira, who also had a cat. Mira had a rather chubby white cat named Aiko.

Aiko was a very affectionate cat with a blue eye and a green eye. She was deaf but that didn't prevent her from exploring her world to the fullest.

Cats had been introduced to Metra Etira fairly recently in the lifespan of the planet. About a hundred years prior a disorganised human merchant had misplaced two of his cats. They were left behind to become the forerunners of many generations of cats to come.

All seemed well until one day, Soul came home from her studies to find them both missing.
